PRESIDENT'S MESSAGE

Brien Cohn
AFIAP, AAPS, SAPS

This year the Vigex Photographic Exhibition will be for digital images only and will be projected onto a large screen in the Supper Room of the Geelong West Town Hall, 153 Pakington St, Geelong West, Victoria 3218. This will be a continuous repeating showing of the 1168 images accepted into the exhibition, held on the 4th and 5th of October. Visitors may come and go as they please.

The images may also be viewed in this catalogue and in the online gallery. Both are on our website vigex.org.au. In addition a shorter selection of the work will be screened later at three other sites, as shown on the website.

2025 has been a good year for the salon, with an entry of 4147 images from 43 countries around the world, significantly up on recent years. The judges awarded 119 of these.

Once again we were very pleased and impressed with the standard of the submitted work and congratulate all those who had work accepted into the exhibition, particularly those whose work received an award.

We very much appreciate and thank our dedicated team of judges, this year from UK, India, Singapore, New Zealand and Australia.

We also thank our sponsors, all Friends of VIGEX members and other helpers whose assistance is all important in making this salon happen.

Our 2026 exhibition will be for prints only, with entries to be received from May and a gallery exhibition in November. Our next digital exhibition will be in 2027.

Brien Cohn AFIAP AAPS

Some Words from the Salon Jury

Elizabeth Passuello

FPSNZ, FNPSNZ, APSEM, SAPS,
APSA, EPSA, EFIAP/b, GPU CR2

Sections 2,4,6

It was both an honour and a privilege to be invited to judge the **5th VIGEX International Digital Photographic Salon**. Thank you to Brien Cohn and his team for this wonderful opportunity to be involved in the salon.

I found the overall standard of work was very good and the award winning images were definite stand-outs. As a judge, not only am I inspired by the variety of fabulous images submitted, it is an opportunity to give feedback to entrants via the scores given. Each score is carefully considered and I hope these have been of assistance to recipients.

Notes from the sections I judged:

Colour Open – images that were quite different to those usually seen, or simply of such high quality they really made a lasting impression, were the ones that scored the best. These attributes I would consider worth bearing in mind when entering future exhibitions, especially in an open category.

Creative – it was a delight to see such amazing creativity. Those that scored the highest were images that both met the brief and were produced to a very high standard in which the various elements of an image gelled together in every way.

Scapes – while there were a few images that did not meet the provided definition, excellent use of both lighting and composition made the awarded images stand out from the rest.

Congratulations to all the photographers who were successful in the salon, and especially those whose images were awarded.

Elizabeth Passuello

There were many fine entries and for those who missed out, here are some thoughts:

For colour images, good composition will always aid in keeping the viewer's interest. Any processing should not make any parts of the image look unnatural or different to the rest. The human eye is very good at detecting changes in colour, so be careful with selective adjustments.

Monochrome images benefit from good use of contrast to emphasize light, shadow and textures. Be careful with the lighter and darker areas of the image; these are where good use of contrast can bring out the subject matter. Keep detail in the whites and the blacks.

For nature, I appreciate seeing new subjects well done and with good detail. It always pays to read all parts of the rules.

In photojournalism, most entries abided by the rules. Good light and composition, and telling a story, will always help in crafting a good photojournalism image.

Ann Smallegange

Ann Smallegange

Sections 1,3,5

David CG Smith
EFIAP/p, GMAPS

Sections 2,4,6

It was an honour to be invited to judge the Colour, Creative and Scapes sections of Vigex 2025 and I thank Brien and his team for a very well organised judging process conducted remotely across the globe.

In the Colour section, there was a generally high standard of work from many different genres, making the judging task challenging and quite a lengthy process to pick the award winners. It was great to see a wide variety of genres represented in the final awarded images. Those with strong impact, storytelling or conveying emotion combined with technical excellence caught the judges' eyes for further consideration.

The Creative section exhibited a wide variety of styles, from quite macabre to humorous and entertaining. Some authors obviously put a great deal of imagination into conceptualising and compositing the final result which impressed the judges. Whilst most had creative intent, not all met the brief of "altered reality", so did not fare so well. The awarded images were both visually dynamic and emotively powerful.

In the Scapes section, it was good to see some new locations from around the world, along with some different interpretations of some popular iconic spots. Great lighting and moody atmospheric conditions were a strong feature of the more successful images and many authors also used slow shutter speeds to convey the passage of time and give further depth and impact to their Scapes.

Congratulations go to all entrants who received awards and acceptances. For those who missed out, I hope you will be inspired by the work here and try again another time.

David C G Smith
